

**AKERBOOM GANGWAYS: THE FIRST STEP TO  
EXCEPTIONAL YACHTING**

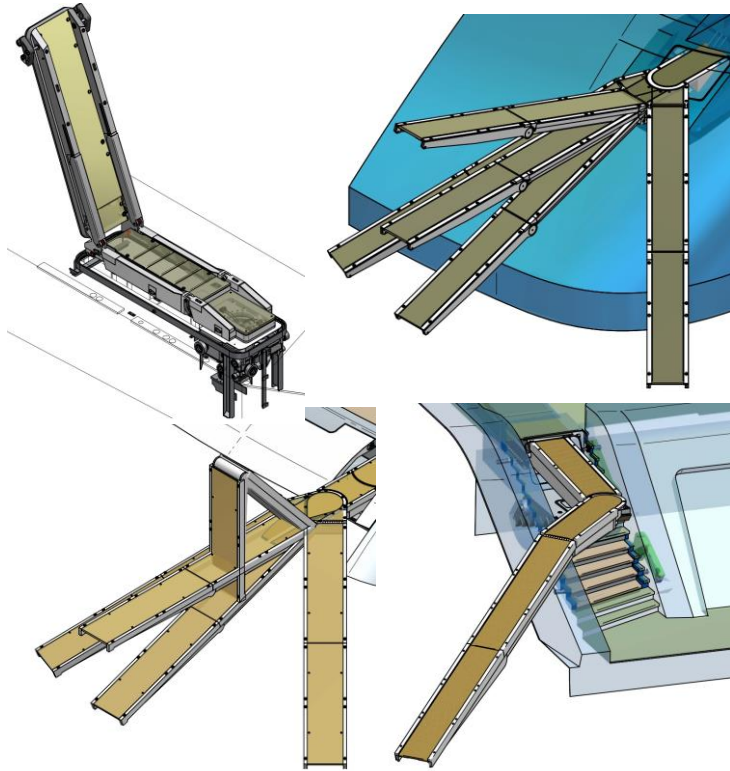

**Gangways crafted with  
Akerboom's highest quality  
standards, featuring effortless  
control for seamless access  
from quay to yacht.**

GANGWAYS

AKERBOOM@AYEHOLLAND.NL

**Standard Model:** Available in either 510mm or 600mm built-in heights to accommodate varying reach requirements, ensuring compatibility with diverse yachts.

**Option 1: Slim Design:** Features a 420mm built-in height for a sleeker profile, ideal for limited spaces but with reduced reach capabilities.

**Option 2: Storage Flexibility:** Engineered to travel within its housing longitudinally or to be stored and swiveled out transversely for versatile deployment.

**Option 3: Pop-Up Mechanism:** A cutting-edge pop-up gangway that emerges from the stern and rotates, extending with an overhang directly to the quay.

## Seamless Integration

Perfectly integrated into the ship's design with a custom hatch for a sleek, unified appearance.

## Stable Stride

Minimized bounce ensures a steady walk on the equipment, enhancing user confidence and comfort.

## Damage Defense

Free-floating function protects both equipment and vessel from damage caused by fluctuating water levels.

## Accessible Design

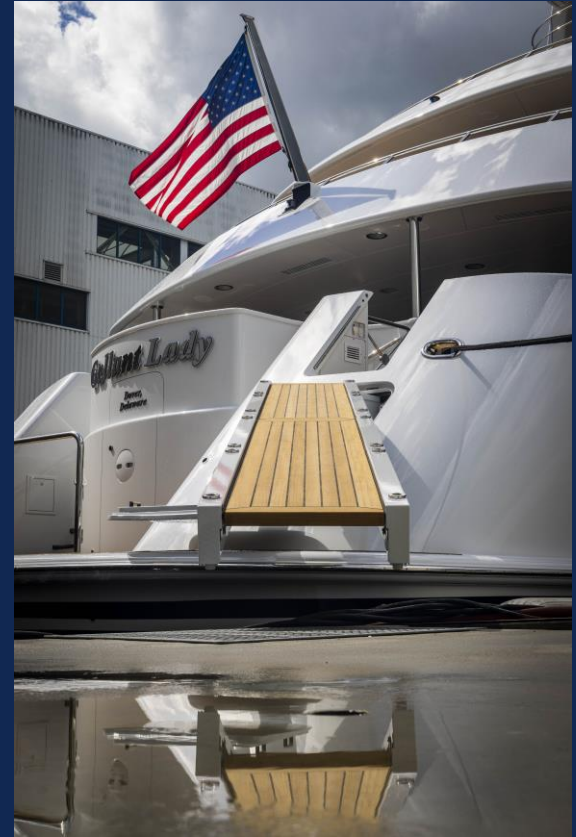

Flush walkway extends the full length of the gangway, making it wheelchair-friendly and accessible to all.

## Lasting Build

Corrosion-proof construction with high-grade materials and galvanic isolation between aluminium and stainless steel ensures enduring quality.

**Explore our refit project featuring a new Akerboom gangway, expertly integrated into a compact space. Designed for frequent use on busy charters, this gangway offers quick deployment and robust durability, all within a swift lead time.**

***Extended Reach: Offers up to 16m extension from housing, adjustable based on built-in height.***

---

***Modular Design: Features modular drive components and sensors that are readily available in the market.***

---

***Stable Hydraulics: Features hydraulic drive components for solid positioning when the gangway is deployed.***

---

***Precision Encoding: Uses absolute encoders to precisely track gangway movements, enabling a more compact design.***

---

***Removable Ropelight: Designed with a ropelight that is easily removable, buckled into the cover without the need for glue.***

Enabling flawless experiences  
through craftsmanship and  
innovation.
