

AKERBOOM

yacht equipment

Special Solutions:
Maximizing platforms

Maximizing space, enhancing luxury, and ensuring safety – Akerboom’s platforms with integrated drive systems redefine the beach club experience.

Maximized open spaces

By reducing the need for structural and technical components besides platforms, we create larger, uninterrupted areas that enhance both functionality and design.

Seamless connection

Fully lowerable side panels enable smooth access to the aft beach club, creating a seamless connection between these areas.

Optimal openings in new builds

Our precision-engineered designs create exceptionally wide openings, tailored to match the exact dimensions of stern platforms for maximum usability.

Enhanced refit possibilities

Even within existing structures, we deliver tailored solutions to achieve maximum openings for side platforms, ensuring optimal space use and seamless integration.

Akerboom's latest drive system innovation unlocks a world of possibilities, delivering groundbreaking solutions for both new builds and refits.

Maximum Load: Supports up to 14 kN·m of torque, with the option to combine multiple units per platform.

Modular Design: Fits yachts with beams ranging from 10 meters to 26 meters, offering flexibility in platform size.

Platform Length: Stern platforms extend up to 26 meters; side platforms can reach lengths up to 20 meters.

Platform Height: Platforms with standing heights up to approx. 4 meters depending on length.

Optimal Opening Size – Opening size limited solely by the structural strength of the hull.

Seamless integration

Hydraulic and electrical components embedded into the platform, removing the need for extra technical compartments.

Trusted Expertise

With decades of specialized experience, Akerboom delivers precision-engineered solutions tailored to the unique demands,

Open space experience

Frees up valuable space, creating a much more open connection between inside and outside.

Modular design

Customizable and scalable to fit yachts of various sizes, with quick lead times and flexible design options.

Proven Durability

A robust system designed to withstand harsh marine environments while maintaining watertight integrity and safety.
